EXPERIENCE

BdCalling It, Dhaka— Full-stack developer

December 2024 – November 2025

Frontend Expertise:

- Proficient in Next.js, React, TypeScript, and Tailwind CSS for building scalable, SEO-optimized applications.
- Multi-vendor SaaS platforms and WebRTC applications with the Best UX performance.
- Expertise in state management with Redux and ensuring secure authentication.

Backend Mastery:

- Backend powered by Node.js, Express, and Mongoose with efficient PostgreSQL data handling and optimized secure REST APIs.
- Performance optimized with ThroughPut, Cluster, Asynchronous, CPU & Thread Optimized, Memory Management, Elastic search, and data caching techniques.
- Real-time operations with Socket.io, modular monolithic architecture, Message broker, and microservices.
- Load balancing and reverse proxy with Nginx, API design via Swagger, and Dockerized environments on Ubuntu servers.

SKILLS

- **Frontend:** Reactjs, Nextjs, Redux toolkit, Typescript, JavaScript, Ant Design, CSS, Tailwind.
- **Backend:** Node JS , Express , Prisma , Mongoose , Payment and Delivery API Integration.
- **Database:** PostgreSQL, MongoDB.
- **Tools :** Agile , Trello , Github , Figma , Vercel , Supabase , Render.
- **Familiar:** Socket.io, Docker, GraphQL

Project

Project Name — werkstekkie (Job-posting)

[Github-backend](#) | [Live link](#) | [Github-Frontend](#)

Technology: Next.js, Redux, TypeScript, Mongoose, Node.js, Nodemailer, Express.

Frontend: Next.js and Redux toolkit api implementations.

- Developed scalable and maintainable frontend applications using Next.js, leveraging its server-side rendering (SSR) and static site generation (SSG) capabilities to optimize performance and SEO.
- Implemented complex state management solutions using Redux Toolkit to handle asynchronous API calls, caching, and global state cleanly and efficiently.

- Integrated RESTful APIs and GraphQL endpoints seamlessly with Redux Toolkit's RTK Query, enabling automatic data fetching, caching, and real-time UI updates with minimal boilerplate.
- Built reusable and responsive React components styled with Tailwind CSS and other modern CSS frameworks, ensuring cross-browser compatibility and mobile-first design.
